Artist Rona Yefman Advises You to Take the Elevator

A video still from Rona Yefman's *2 Flags* (2006).

In *Two Flags*, Israeli artist Rona Yefman reimagines conflict in the Middle East as a Capture the Flag-like game. We'd imagine whoever is standing at the bottom of this stairwell is, well, totally screwed. *Two Flags* is part of Dumbo gallery Smack Mellon's military-themed show of recent video works, "Infinitu et Contini: Repeated Histories, Reinvented Resistances," up through December 30.
